

Disney Castle Modifications

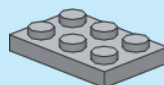

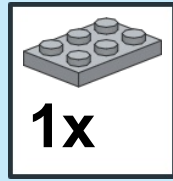

Here are the instructions to the mods to the Disney Mini Castle (40478). There are three assemblies: two 2 x 3 brick replacements for the walkway and a replacement main tower.

The main tower needs to be removed from the assembly. Remove the 1 x 2 slopes and the 2 x 2 round bricks. On the top, remove the 1x1 quadruple slope. Keep the bottom plate structure and the top.

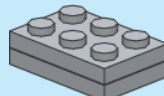

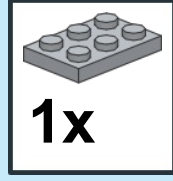

The instructions assume a complete rebuild. The parts list below is a complete list, with **bold parts** available in the original main tower assembly.

Qty	Part	Description	Color
4	3021.dat	Plate 2 x 3	Light Bluish Grey
2	3623.dat	Plate 1 x 3	Light Bluish Grey

6

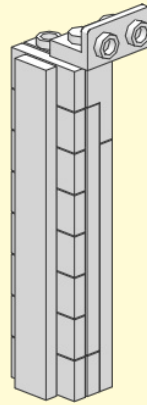

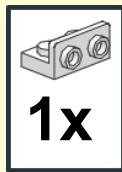

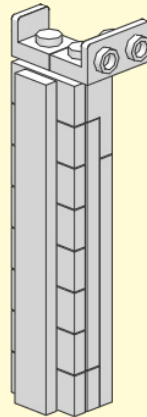

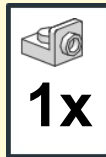

If you removed
the 1x2 slopes
from the original
tower, start here!

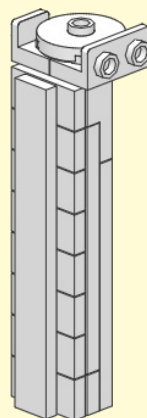

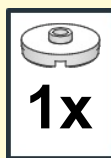

6

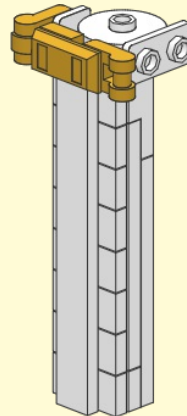

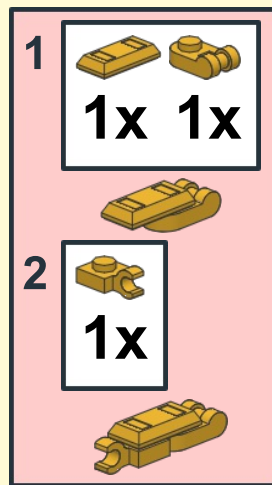

7

8

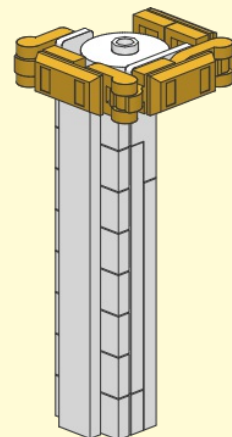

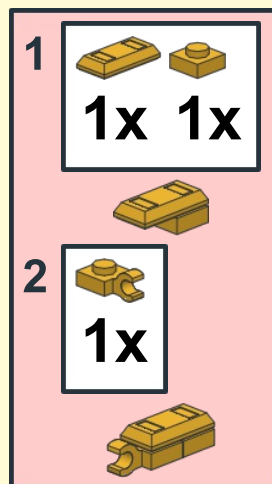

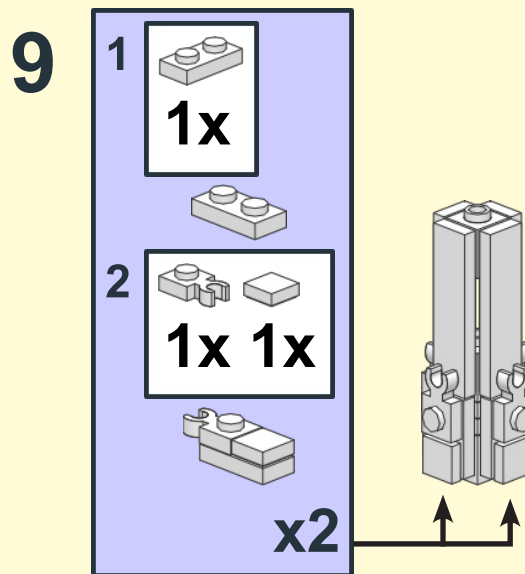

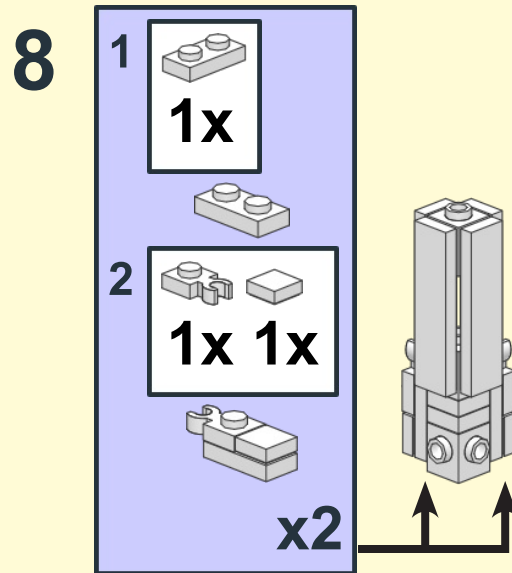

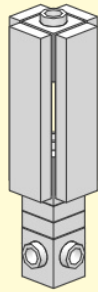

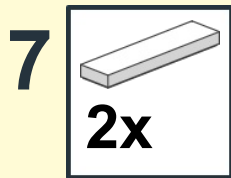

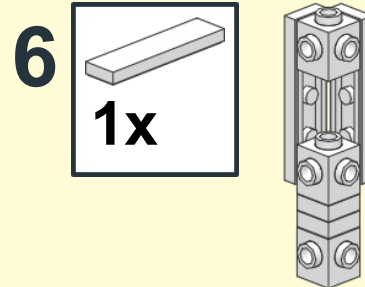

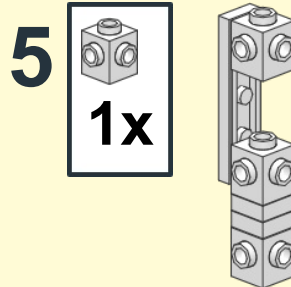

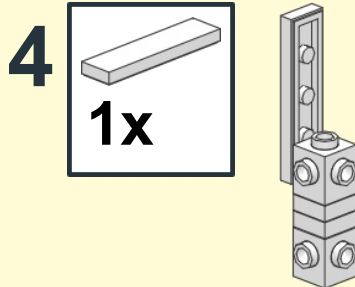

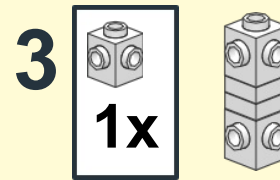

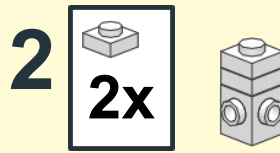

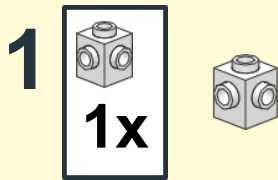

9

This is identical
to the 'wrap around '
on the original set.

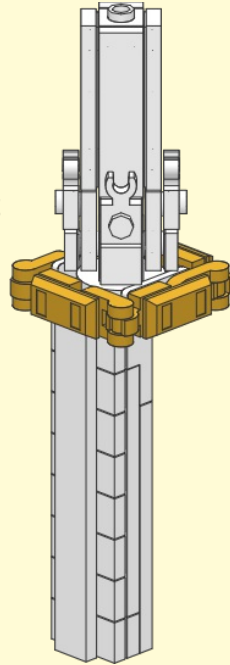

10

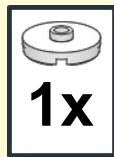

11

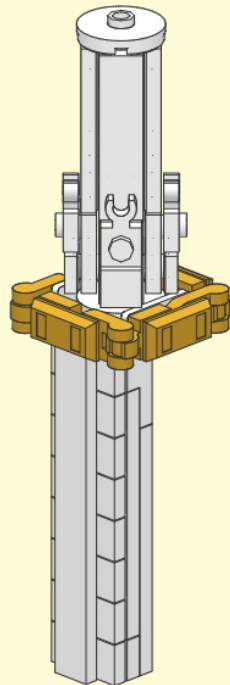

Turn the assembly
45 degrees when inserting

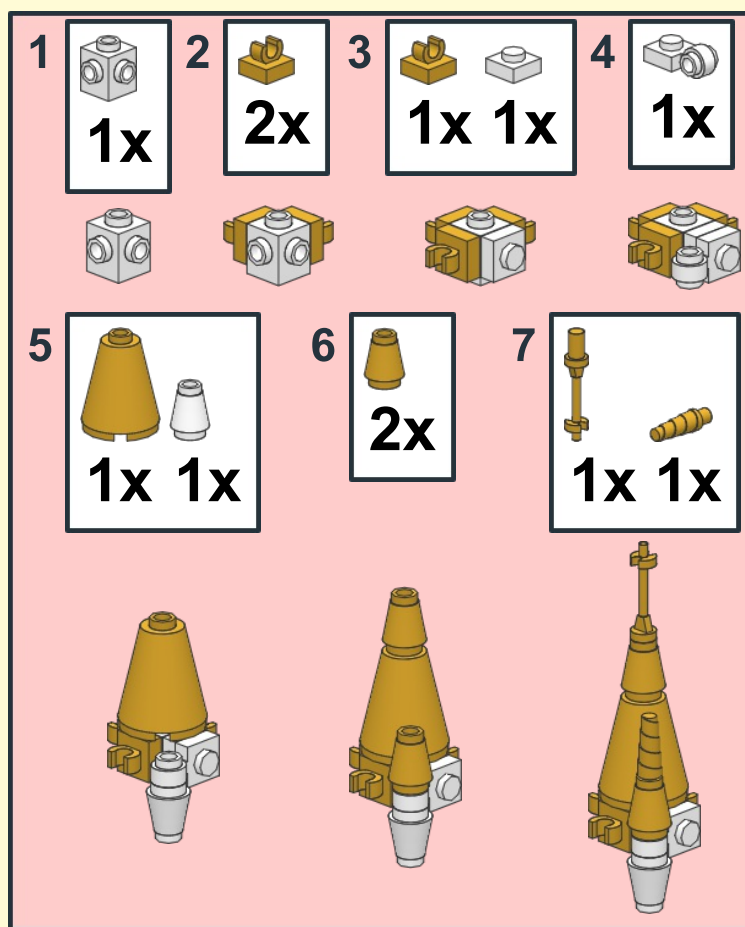

12

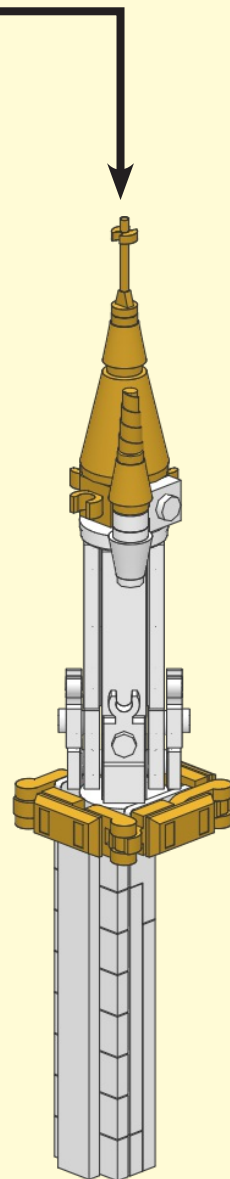

1x

13

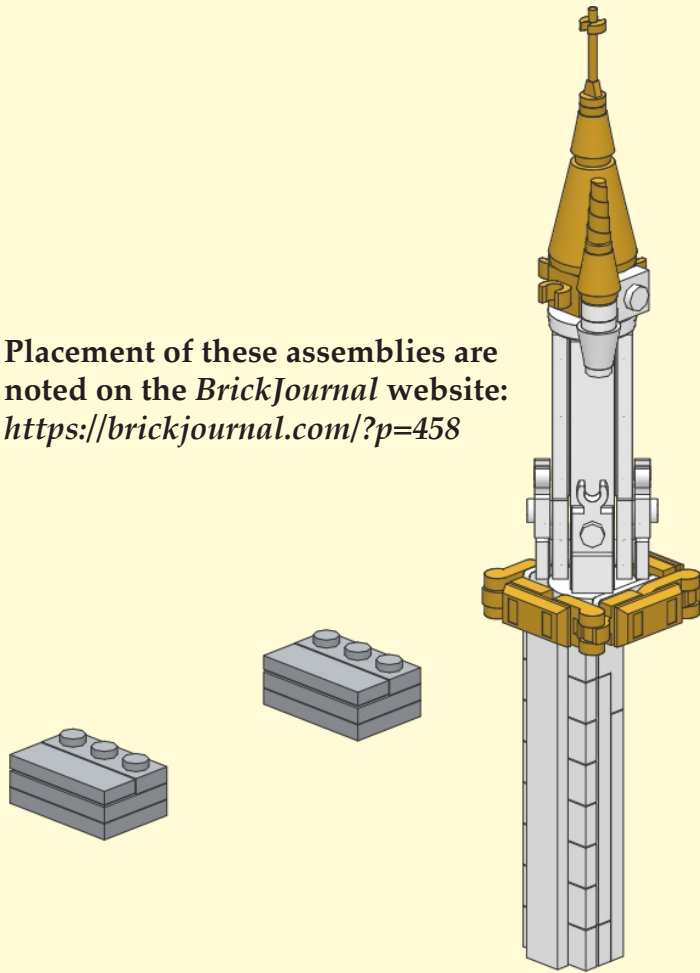

If you kept the top and removed the 1x1 quadruple slope, you can skip this, EXCEPT the white 1 x 1 cone noted on Step 5

7

Placement of these assemblies are noted on the *BrickJournal* website:
<https://brickjournal.com/?p=458>

You can print this on sticker paper and cut to the outlines. They will fit an a 2 x 3 tile.
